

The KS2 Project Framework

Four stages. A bit of structure. Genuinely finished projects, not half-started ones.

1 Choose

What do we want to find out about?

2 Research

Where will we look? Books, websites, places to visit

3 Create

How will we show what we've learned?

4 Present

Who will we share this with, and when?

This is a planning tool, not a legal requirement. There is no set format a project needs to follow.
