

Unschooling Evidence Prompts

Not a lesson plan. Three prompts, built around the legal tests, to help you notice what is already happening.

1 Efficient

What has my child genuinely gotten better at recently, even informally?

2 Suitable

What have they been deeply absorbed in this week, and what did it actually involve?

3 Full-time

Roughly how much of this week involved genuine learning, even if it did not look like lessons?

This is a reflection tool, not a legal document. It is for your own clarity, not something you are required to complete or share.
